Applicant's response to the Office Action of 5/22/02 is noted, however, the reply filed on 10/1/02 is not fully responsive to the prior Office action because of the following matter(s): this application fails to comply with the requirements of 37 CFR 1.821 through 1.825 as set forth previously. The specification makes reference to specific polynucleotide and polypeptide sequences; these references must contain a sequence identifier of the form: SEQ ID NO: X. Applicant has provided a substitute specification, however there are numerous problems associated with this submission. The proposed amendments have not been entered because they do not correspond to the substitute specification, e.g. there is no word "timer" at page 2, line 22. 37 CFR 1.125 requires: a statement that no new matter has been introduced, that the substitute specification be provided excluding the claims, that a marked up version of the specification be provided. Further, the Abstract is required to be on a separate sheet of paper, MPEP § 608.01(b). Additionally, there is no substitute Figure 2 as is asserted by Applicant.

Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a). Extensions of time may be obtained by filing a petition accompanied by the extension fee under the provisions of 37 CFR 1.136(a). In no case may an applicant extend the period for reply beyond the SIX MONTH statutory period. Direct the reply to the undersigned. Applicant is requested to return a copy of the attached Notice to Comply with the reply.
